

Ryan Tal Fellers, Joseph Brent Greer, Bryan Patrick Early, AJ van Nispen

To use TDPortal as an external user now that you have a functioning NetID please follow these steps:

1. Setup NU VPN and connect (<http://www.it.northwestern.edu/oncampus/vpn/>)
2. Connect to the share here: <\\resfiles.northwestern.edu\NU-PCEDATA> using this link: (<https://kb.northwestern.edu/page.php?id=70525>)
3. See if you can open the external_users*(your NetID)* folder and upload something (anything you care to share, start small).
